

PREVIOUS WINNERS, DOMINATING, TEAM RACING, BLOCKING

- 4.3 **Previous Race Winner:** Can start no better than one position behind the inversion number.
- 4.4 **If the Previous Race Winner Skips the next race after they win a feature race** then the next race they compete in they will be considered as a **PREVIOUS WINNER** and they will start behind the true previous race winner for the feature if both previous winners finish high enough to be in the redraw for the feature. EIRI
- 4.5 **DOMINATING a division.** If a driver or car is dominating a division they may be required to do a track tear down of their engine and an extended inspection process of the entire car. They may have to add weight, start in the rear of the field or the race director may choose some other method to equalize the competition.
- 4.6 EIRI = Except in Rare instances.

THE BIG DAWGS IS WHERE MANY DRIVERS GET THEIR START: Any driver can compete in this division however you must understand this is a Novice entry level class and that mistakes will be made. If you are an experienced driver and you want to race with the break out division you need to be approved anytime you want to race by track ownership & you will be placed on probation if any incident evolves around you or your intolerance for rookie driving or mistakes made by rookies. EIRI

- 4.7 **TEAM RACING / BLOCKING:** No team racing or team blocking allowed. If you have family & team cars this will be watched closely and if it is determined this is going on to benefit a team car... you will be blacked flagged for a stop and go penalty. If it happens again you will be disqualified from the event and lose all points and may receive additional penalties.

EIRI = Except in Rare instances.
