Some Key Points to Remember when racing at Veterans Motorplex.

If you spin the leader on the final lap you can finish no better than one position behind the car you spun.

We start the race at the stripe coming off turn 4.

The leader of the race sets the pace (a reasonable pace) for the start.

If the front row of cars play games on the start or restarts causing multiple restarts.. both cars may be sent back a row or both cars may be sent to the rear of the field.

No passing on Starts or restarts until after you pass the start finish line.

Slow cars must layover to the inside of the track.

You must have a working Transponder and Raceiver to Race.

We use a cone on the front straight before each start where you can select inside or outside.

All starts and Restarts are double File.

All cars involved in a wreck go to the rear. If two cars spin both cars go to the rear unless one driver taps out then the other car will get their spot back and the car tapping out goes to the rear

EXIT the HOT track to the INFIELD and then wait to be flagged across the track to outside pits once track is not HOT
